

SAP, Microsoft and HR-XML renew certification of ETWeb Enterprise, ExecuTRACK's Human Capital Software solution

Duesseldorf, February 28, 2006 – As a result of constant and rigorous quality certification testing, ExecuTRACK Software has once again proven its high standard of excellence in producing Human Capital management solutions. The renewed certifications for SAP NetWeaver, HR-XML Consortium, and Microsoft SQL Server 2000 reinforce the stability and quality offered by its flagship Web-based product, ETWeb™ Enterprise. In addition, ExecuTRACK has once again achieved the status of Microsoft Gold Certified Partner, the highest status achievable by Microsoft partner organizations.

“The successful recertification of ETWeb by these prominent organizations reaffirms the value placed on high-quality, integratable systems in today’s business world. Our customers profit tremendously from the strategic collaboration with our partners, which it makes possible to merge proven human capital management concepts and cutting-edge technologies into a single solution,” said Dr. Andreas Hoynigg, Managing Director of ExecuTRACK Solutions.

ETWeb Enterprise is the first Human Capital Management software to be “Powered by SAP NetWeaver”. Through this certification, our customers can seamlessly integrate ETWeb into an existing SAP infrastructure and thus link corporate wide HR processes with SAP. Through a single sign-on, HR personnel can access cross-system HR data, which prevents them from having to maintain the same data in different places. Because all information is accessed from a single user interface, training and support costs can be kept to a minimum.

The HR-XML certification verifies ETWeb's superior integratability in transacting with other companies using various data interchange mechanisms. "Among the growing selection of HR systems out there, the solutions based on HR-XML are taking on significant importance in the global marketplace. Only those solutions using this standard can realize lower customization costs through reduced UI maintenance and system administration tasks," explains Dr. Hoynigg.

The ExecuTRACK Software Group has rapidly established itself as the world leader in the market for strategic Talent Management. The 100% Web-based solution ETWeb Enterprise – developed with over 20 years of experience - fully supports your organization in analyzing and managing all areas of its human capital: Career & Succession Planning, Performance Management, Skills and Competency Management, Training & Development Management, Compensation Management, Organizational Charting, and Global Talent Warehouse.
